No Chance for a Kick

When you buy your Lumber and Building Materials here. Looking backward over the past, you may recall instances of dissatisfaction with the quality of the Lumber and Building Material which you bought.

If this is so, it should certainly interest you to know that we have a stock from which you can get the kind of material that suits you, at prices no greater, and often less, than you will have to pay for unsatisfactory stuff at other places.

When we sell you Lumber or Building Material, we expect you to come again. This being the case, why shouldn't we do all we can to please you in quality, price and treatment?

The fact that buyers almost invariably come back after once buying here is strong evidence that we give them "no chance to kick."
